

OUR SOLUTIONS ARE YOUR

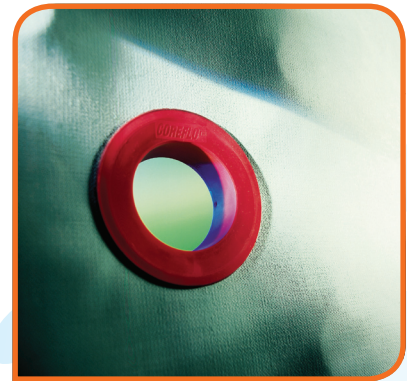

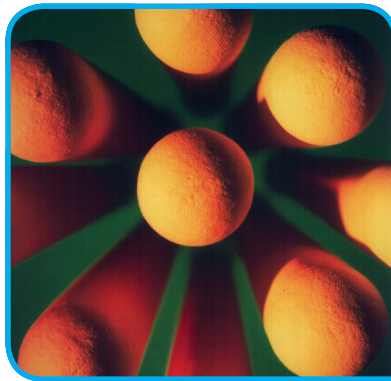

CLEAR EDGE FILTRATION is part of Gamma Holding N.V. Comprising 110 companies in 42 countries, it employs over 7,000 people and enjoys an annual turnover in excess of €744 million.

CLEAR EDGE FILTRATION EXCELS AT TAKING **OWNERSHIP** OF YOUR PROCESS CHALLENGES AND PRESENTING **INNOVATIVE SOLUTIONS.**

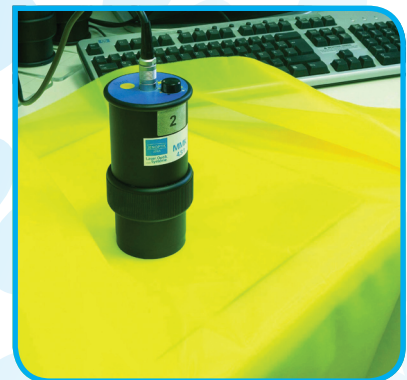

An innovative solutions provider, Clear Edge Filtration is focused on three primary business sectors.

Filtration & Screening Products

An extensive range of wet and dry filtration and screening products and fabrics to meet the needs of diverse industry sectors.

- Cerafil™ Ceramic Elements
- Compact Filter Elements
- Dust Filter Bags
- Fluidized Bed Dryer Bags
- Filter Press Fabrics
- Tower Press Belts
- Horizontal Vacuum Belts
- Drum, Pan, Disc Covers
- Twin Wire Press Belts
- Pressure Leaf Covers
- Kelly Bags
- Candle Filter Bags
- Centrifuge Liners
- Vessel Bags
- Screening Fabrics
- Sifters & Connectors

Process Belts

Metallic and synthetic wires and fabrics are engineered to perform in process critical conveying, forming, pressing, processing and liquid filtration applications.

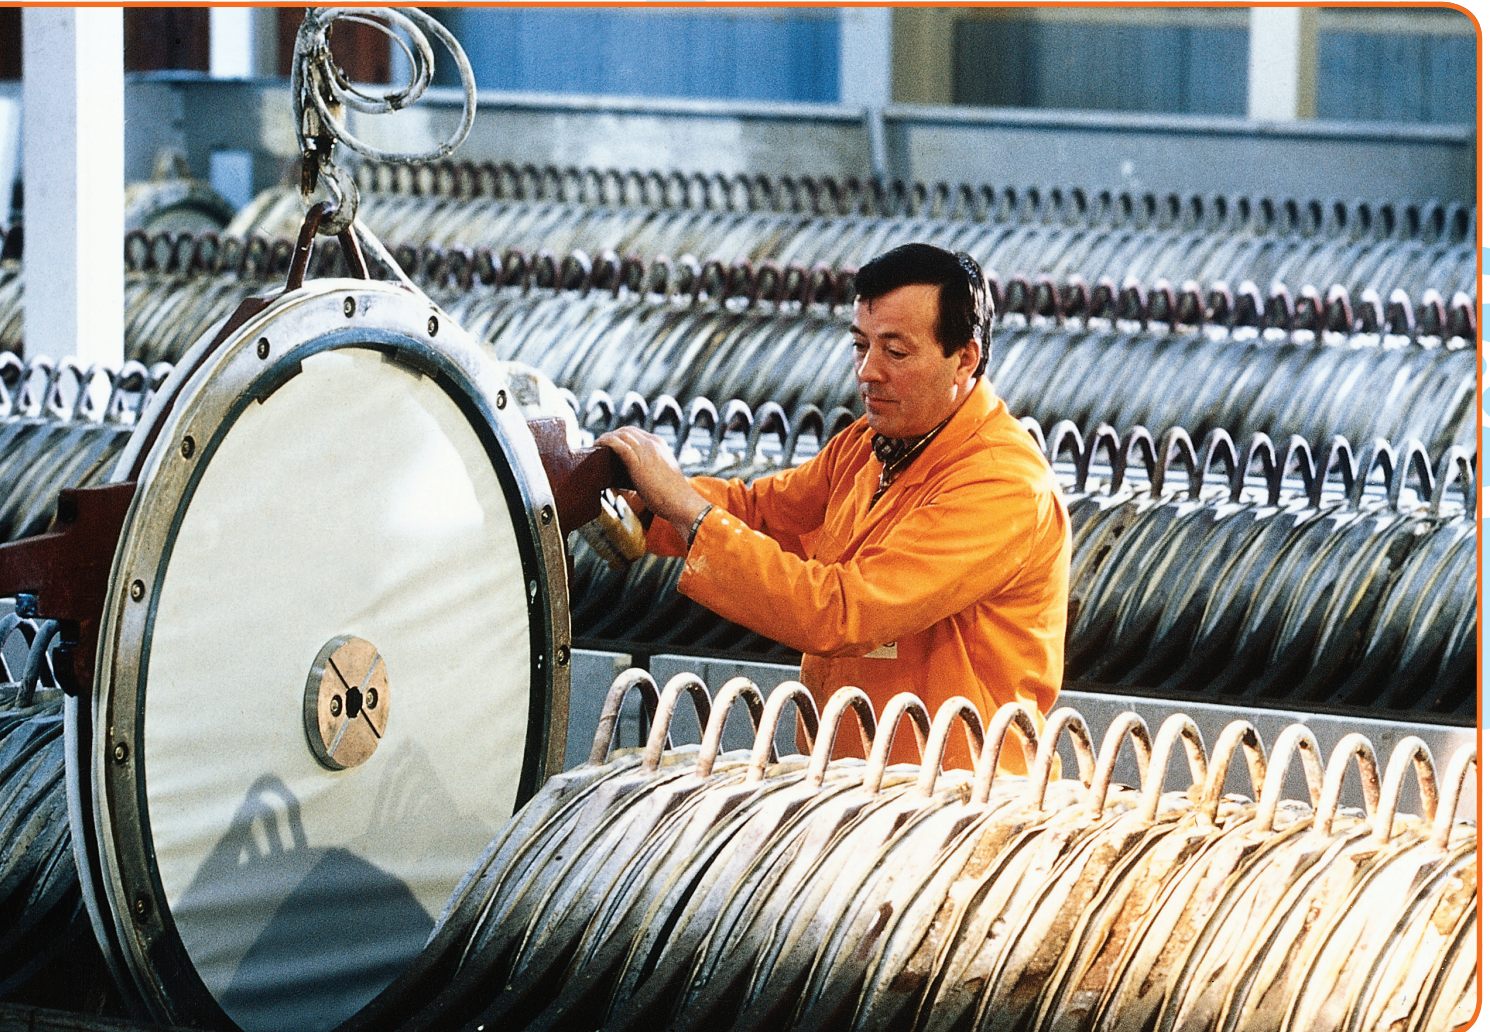

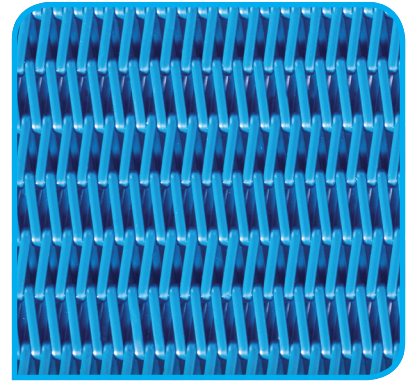

- Woven Filter Belts
- Spiral Belts
- Metal Belts & Wires
- Engineered Belting Solutions

Screen Print

VS-Monoprint™ mesh is the vital ingredient for color, vibrancy and precision in all screen printing applications.

BREADTH OF APPLICATIONS KNOWLEDGE PLUS SUPERIOR TECHNICAL AND CUSTOMER SERVICE IS THE UNIQUE CLEAR EDGE FILTRATION ADVANTAGE.

Clear Edge Filtration is a global technical leader in the world of filter media, industrial process filtration products and screen print solutions.

Clear Edge Filtration leadership is realized daily, through our responsiveness, product quality, global infrastructure and local technical support. Our products and expertise are required in numerous industries across the globe.

MINERAL PROCESSING

Clear Edge Filtration wet and dry filter media are used on drum, disc, horizontal belt and pan filters in the mineral processing industries. Tower press belts, press cloths, kelly bags and ceramic elements are also supplied.

CHEMICALS

Our filtration and process products are used in the manufacture of pigments & dyes, acids, sulphates, chlorides, zeolites, polymers and other chemicals. Dewatering, washing and pollution control are all primary applications.

PULP & PAPER

Clear Edge Filtration synthetic, spiral and metal fabrics meet the washing, bleaching, fiber capture, chemical treatment and PMC dryer needs of the pulp and paper industries.

FOOD & BEVERAGE

Clear Edge Filtration screen, filter and process products separate and transport food stuffs including dairy products, sugars, flour, fats and starches; plus beverages such as wine, beer, juice and soft-drinks.

WASTE WATER

Filter press fabrics, filter belts and dewatering tables are supplied into industrial and municipal applications.

ENVIRONMENTAL

Clear Edge Filtration leads the field in effective pollution control solutions. Products include dust bags, Cerafil™ hot gas ceramics, compact filter elements and the new Cerafil Topkat™ ceramic elements.

HEALTH & PHARMACEUTICALS

Our screen and filter solutions are supplied for blood transfusion, infusion, diagnostics and laboratory testing. Approved materials are also used in the manufacture of tablets, drugs and the recovery of crystalline solids.

WOOD FIBER & BUILDING PRODUCTS

Clear Edge Filtration products are used at critical stages of particle board, medium density fiberboard (MDF), oriented strandboard (OSB), hardboard and wood veneer processes. Belting products are also supplied for the manufacture of ceiling tiles and panel board.

NON-WOVENS

Synthetic and metallic materials are supplied for the manufacture of spunbond, hydroentanglement, air laid forming, air laid drying, air transfer and meltblown non-wovens.

GLASS FIBER MATT

Hydroformer, saturator and oven wires are supplied to meet the needs of this demanding industry sector.

FLUE GAS DESULPHURISATION

OEMs and end-users rely on Clear Edge Filtration horizontal vacuum belts when dewatering gypsum.

AUTOMOTIVE

Precision screening fabrics, often supplied to converters in roll-good form, function as fuel, grease, oil, windshield washer and air ventilation filters.

CORRUGATED BOXBOARD

Woven and nonwoven belts ensure reliable production of corrugated box board.

SCREEN PRINT

VS-Monoprint™ precision screen printing mesh is supplied for printing on glass, ceramics, electronics, textiles, billboards and other promotional materials.

OUR TECHNOLOGY IS YOUR

edge

A DYNAMIC GLOBAL STRATEGY UNDERPINNED BY STRONG CUSTOMER FOCUS AND LOCAL SUPPORT IS THE CORNERSTONE FOR OUR SUCCESS.

Indeed, the multi-disciplined support from our technical team, plus a proven track record for responsive local customer service, brings Clear Edge Filtration customers a tangible, competitive edge.

Our central research facility links to local laboratories across North America, Asia Pacific, Europe and Africa, enabling innovation to be driven globally and testing to be undertaken locally. The aim here is to partner with like-minded companies assisting customers with technology transfer and process improvement in their plants.

Clear Edge Filtration is committed to outstanding innovation and new product development.

Companies on every continent rely on our global infrastructure, which provides a vast geographical reach, plus the best local technical service the world has to offer. Our goal is 100% total customer satisfaction. All of our actions and decisions are driven by our customer needs.

We provide technical solutions you can trust and enjoy access to an extensive, global knowledge bank. This wealth of experience is vital to our product development effort and our ability to support customers in the field, no matter where they are.

Scientists and application engineers at Clear Edge Filtration remain focused on process improvements, separating solids from liquids and particles from gasses more efficiently.

We also work in close co-operation with top scientific universities and research institutions around the world to develop leading edge solutions for our customers.
