

# SERIES 1100 PLEATED FILTER

**1", 2" & 4"  
MERV 11**

*Ideal for use in*

- Residential
- Industrial
- Commercial

## WHY THE SERIES 1100 PLEAT?

- High performing 100% synthetic media with low initial pressure drop
  - Initial efficiency greater than 65% on 1-3 micron particles & 2x greater than traditional cotton poly
- Deeper pleats accumulate heavier restrictive particles at the bottom of the pleats leaving sides open for longer filtration life
- Effective dust loading reduces strain on equipment
- Moisture resistant media does not support microbial growth
- Excellent pre-filter for high efficiency air filters
- Durable construction optimizes performance
  - Media is laminated to air exit side support grid prevents fluttering and maintains pleat uniformity
  - Media pack is bonded to all sides of frame to prevent air by-pass
  - Heavy duty, moisture resistant frame will not warp, crack or distort under normal operating conditions
  - High strength frame increases durability and prevents breaching
