# Let Optimum Filtration work for you

SUPPLYING YOUR BUSINESS WITH THE RESOURCES YOU NEED

## Liquid Filtration

Cartridges, Bags, Lenticular, Porous Metal, Screens, Filter Cloth, Membranes, Housings and Equipment

Optimum Filtration can offer a complete range of cartridges from wound, pleated and thermal bonded through to PES, Nylon and PTFE membranes. We also have a complete line of standard or pleated filter bags in felt or mesh construction materials, with nylon monofilament, polypropylene or polyester media. They are available for new or current applications with multiple end, top, and seal configurations. These products can also be supplied meeting FDA and NSF requirements.

We also can provide a full range of single and multi-cartridge housings to compliment these products that can be customized to fit your application.

Some Applications:

- High Purity & Sanitary Applications
- Liquid, Syrups, and Beverage Polishing
- Reduction of Chlorine, Organic Chemicals, and Odors

## Oil, Gas & Fuel Filtration

Cartridges, Spin-On, Coalescing, Separators, and Housings

Optimum Filtration can offer a complete range of cartridges that effectively remove solids, acid, or solids and water contaminants from hydraulic, lube and insulating oils. They are available for new or current applications with multiple ends and seal configurations.

We also carry a full range of single, duplex and multi-cartridge housings to compliment these products, and can be customized to fit your application.

Some Applications:

- Turbine Lube & Hydraulic Oils
- Compressor Lube Oil
- Synthetic Lubricants
- Water Glycols
- Petroleum Based Fluids
- Hot & Corrosive Gas Filtration
- Cost Effective Replacements for Expensive OEM Units

## HVAC, Dust Collection, & Gas Filtration

Cartridges, Bags, Porous Metal and Housings

Optimum Filtration can offer a complete range of air filtration products for Paint Booths, Hospitals, Food and Industrial Facilities, and many more applications.

We also can provide a full range of filtration housings to compliment these products, and can be customized to fit your application.

Some Applications:

- Intake or Exhaust for Equipment or other Processes
- Gas Turbine Intake Elements
- Office Air Handling Units
- Cleanrooms / Operating Rooms
- New or Renovating Construction Sites
- Hazardous Gas Adsorption for Operator and Equipment Protection
- Capture of Oil / Grease Vapor, or Smoke Fumes

## Water Treatment

Metering Pumps and Automatic Self-Cleaning Filters

Automatic Self-Cleaning Filters and Metering Pumps can help to control the cost of chemicals, labor, product quality, and down time in your facility. We have the technology to filter High Volumes of Water and ensure filtration levels down to 0.45 microns with minimum operator intervention.

Some Applications:

- Cooling Towers / Process Cooling Water
- Intake / Reclaim Water, Effluent / Waste Water
- Spray Nozzles and Irrigation Lines
- Heat Exchangers, Instrumentation
- I.E. & R.O. Units Pre-filtration
